Author index to volume 5 for year 2009

	Issue	Page
Agranovich P. Multi-Term Asymptotic Representations of the Riesz Measure of Subharmonic Functions in the Plane	**1**	**3**
Almeida R., Neves V., and Plakhov A. Retroreflecting Curves in Nonstandard Analysis	**1**	**12**
Andreev P.D. Geometric Constructions in the Class of Busemann Nonpositively Curved Spaces	**1**	**25**
Andriyasheva N.V. — see *Gordevskyy V.D. and Andriyasheva N.V.* Interaction between "Accelerating-Packing" Flows in a Low-Temperature Gas	**1**	**38**
Anoshchenko O., Lysenko O., and Khruslov E. On Convergence of Solutions of Singularly Perturbed Boundary-Value Problems	**2**	**115**
Bershtein O. and Sinel'shchikov S. A q-Analog of the Hua Equations	**3**	**219**
Bershtein O. and Kolisnyk Ye. Plancherel Measure for the Quantum Matrix Ball-1	**4**	**315**
Bruk V.M. On Linear Relations Generated by Nonnegative Operator Function and Degenerate Elliptic Differential-Operator Expression	**2**	**123**
Girnyk M. Planar Lebesgue Measure of Exceptional Set in Approximation of Subharmonic Functions	**4**	**347**
Gorkavyy V.O. and Nevmerzhitska O.M. Ruled Surfaces as Pseudospherical Congruences	**4**	**359**
Gordevskyy V.D. and Andriyasheva N.V. Interaction between "Accelerating-Packing" Flows in a Low-Temperature Gas	**1**	**38**
Gorokhova I.V. Small Transversal Vibrations of Elastic Rod with Point Mass at One End Subject to Viscous Friction	**4**	**375**

Khrabustovskyi A. On the Spectrum of Riemannian Manifolds with Attached Thin Handles **2** **145**

Khrabustovskyi V.I. On the Limit of Regular Dissipative and Self-Adjoint Boundary Value Problems with Nonseparated Boundary Conditions when an Interval Stretches to the Semiaxis **1** **54**

Khruslov E. — see *Anoshchenko O., Lysenko O., and Khruslov E.* On Convergence of Solutions of Singularly Perturbed Boundary-Value Problems **2** **115**

Kolisnyk Ye. — see *Bershtein O. and Kolisnyk Ye.* Plancherel Measure for the Quantum Matrix Ball-1 . . . **4** **315**

Kotlyarov V.P. — see *Moskovchenko E.A. and Kotlyarov V.P.* Long-Time Asymptotic Behavior of an Integrable Model of the Stimulated Raman Scattering with Periodic Boundary Data **4** **386**

Krouglov V. Parabolic Foliations on Three-Manifolds . . **2** **170**

Lysenko O. — see *Anoshchenko O., Lysenko O., and Khruslov E.* On Convergence of Solutions of Singularly Perturbed Boundary-Value Problems **2** **115**

Moskovchenko E.A. Simple Periodic Boundary Data and Riemann–Hilbert Problem for Integrable Model of the Stimulated Raman Scattering **1** **82**

Moskovchenko E.A. and Kotlyarov V.P. Long-Time Asymptotic Behavior of an Integrable Model of the Stimulated Raman Scattering with Periodic Boundary Data **4** **386**

Neves V. — see *Almeida R., Neves V., and Plakhov A.* Retroreflecting Curves in Nonstandard Analysis **1** **12**

Nevmerzhitska O.M. — see *Gorkavyy V.O. and Nevmerzhitska O.M.* Ruled Surfaces as Pseudospherical Congruences **4** **359**

Plakhov A. — see *Almeida R., Neves V., and Plakhov A.* Retroreflecting Curves in Nonstandard Analysis **1** **12**

Poplavskyi M. Bulk Universality for Unitary Matrix Models **3** **245**

Rofe-Beketov F.S. — see *Zubkova E.I. and Rofe-Beketov F.S.* Necessary and Sufficient Conditions in Inverse Scattering Problem on the Axis for the Triangular **2 × 2** Matrix Potential **3** **296**

Shamoyan F.A. — see *Tkachenko N.M. and Shamoyan F.A.* The Hardy–Littlewood Theorem and the Operator of Harmonic Conjugate in Some Classes of Simply Connected Domains with Rectifiable Boundary **2** **192**

Shcherbina T. On Universality of Bulk Local Regime of the Deformed Gaussian Unitary Ensemble **4** **396**

Sinel'shchikov S. — see *Bershtein O. and Sinel'shchikov S.* A q-Analog of the Hua Equations **3** **219**

Tkachenko N.M. and Shamoyan F.A. The Hardy–Littlewood Theorem and the Operator of Harmonic Conjugate in Some Classes of Simply Connected Domains with Rectifiable Boundary **2** **192**

Zolotarev V.A. On Commutative Systems of Nonselfadjoint Unbounded Linear Operators **3** **275**

Zubkova E.I. and Rofe-Beketov F.S. Necessary and Sufficient Conditions in Inverse Scattering Problem on the Axis for the Triangular **2 × 2** Matrix Potential . . . **3** **296**

Chronicle

In commemoration of Anatolij Asirovich Goldberg **1** **104**

Aleksej Vasil'yevich Pogorelov **2** **211**

International Conference, devoted to the 90-th anniversary of academic Aleksej Vasil'yevich Pogorelov **4** **434**

Author index to volume 5 for year 2009 . . . . . **4** **435**
